

Sujith KS

UI/UX DESIGNER/ UI DEVELOPER

With 4.5 years of IT experience in UI development and UX design, I possess extensive knowledge in HTML, CSS, JavaScript, Photoshop, Adobe XD, Figma, Illustrator, Next JS, Tailwind CSS, and Adobe After Effects. I am skilled in creating and building web pages using HTML and CSS, as well as creating Adobe XD and Figma wireframe designs for Android and iOS.

Additionally, I have good skills in wireframe prototyping and experience with VS Code and Notepad++. I am capable of troubleshooting UI issues and handling projects independently, with experience in front-end development, customer interaction, follow-ups, and unit testing. I am always eager to learn new technologies and can work independently or as part of a team to meet deadlines. I also have exposure to responsive web design using Bootstrap and knowledge of ReactJS, JQuery, browser compatibility (IE, Firefox, Chrome), and video editing for project presentations using After Effects and Activepresenter.
